How to find your library’s Hoopla collection count

Each library has the ability to find their collection count by logging into their Midwest Tape account:

1. On the Midwest Tape site, click on the "hoopla" tab next to HOME.

2. Click on "Manage Content."
3. Click on "Search your current library hoopla catalog."

4. Find the numbers for the library’s catalog by format on the left-hand side. If you scroll down, you can also see exact numbers for titles set at specific price points.

Hoopla adds titles daily, so these numbers fluctuate frequently and may need a bit of time to update on the site.
